The bracket finals for 2014 will be held at US 13 Dragway in Delmar Delaware.

We will only be taking 32 total vehicles with the minimums as follows:

Super-----7

Pro-----7

Bike/Sled---1

with 14 floaters to put where they are needed.

didn't mean any disrespect , I perfectly understand the numbers and floaters that she posted , its been hard to get racers to travel the last few years , having low minimum racers and 14 floaters is a good idea given the situation , my only disappointment is the Delmar finals location , its the bottom most n.e.d. spot , basically a days drive one way for us , making a full team even more difficult to attain , got spoiled with Lebanon I guess , even p.a. was difficult to get a full team , now back to the bottom
and I no it wasn't estas choice , they just go with the flow ,

I take it that the car count is all tracks? 32 cars or race vehicles?
