The 55 Hangman was Mo Hale. He is deceased. The car is in Canastota, I beleive, being restored to a street car.

The 57 Poison Ivy was Tom Whites. Whites Auto & Speed in Cicero. You might try contacting him?

The Hangman is in peices in a non disclosed location in Chittenango...Appears the kid lost interest in restoring the car when he saw that the rear section of the chassis was moved in to accomodate the 14-32s.....
