

Construction begins!

Posted by Jeff Parker - 10 Apr 2013 10:37

Our contractor broke ground this morning, and is removing blacktop as I type this. **PLEASE DO NOT GO TO THE TRACK DURING THE CONSTRUCTION PHASE!**

With the trucks and equipment rolling around, we do NOT want anyone on the property until its complete. Its for your safety, and so the contractor can work unimpeded. You WILL Be instructed to leave. I cant emphasize it enough. (thank you in advance for your compliance and consideration!)

I'll do my best to get update pictures so everyone can stay on top of the project.

That's great news!

Someone needs to change the opening day date on the home page though. I've had a few people ask me if I'm ready for Sunday!

Update: all the grinding is complete. Concrete removal takes place tomorrow

Stay tuned!

I know, Jeff. But some people just look at the top of the page. These guys aren't from the area and don't frequent the site much.

Same with the schedule page, seems some jump right to it and don't read the main page. Had a few ask me about it.

Trying to fix a forum glitch that's preventing Jeff's photo uploads to the forum. Forum configuration

shows the uploaded pics ok and permissions to allow pic uploads is set to yes, but obviously something is messed up. Dick Aversa had same problem last year. Thanks.

lets try this

=====

Re: Construction begins!

Posted by Jeff Parker - 11 Apr 2013 11:49

since that worked...

Hey Mike, while you're at it with the glitches, for some reason I can't access the forum from my home pc or from my phone browser. It just says Forbidden. Work pc is the only one I can access on. Why?
