

Construction on Rte31

Posted by tracman466 - 19 Jul 2013 18:35

Traveled on 31 today and.....

they are working on the bridge and have closed it between Statebridge and Route 316? on 31....there is a detour which is maybe an extra 5- 7 miles around it by following the signs (thru durhamville and such)

Anyone coming on Rte 31 from Utica, Rome or Vernon may want to give themselves an extra few minutes travel time...just thought I'd pass this on!

I wonder if it would be quicker if you were coming from Rome, to go through the beach?

It's only an extra 5-10 minutes thru the detour if traffic is normal guys
