

another sad day

Posted by Rdrbn - 17 Feb 2014 19:51

I would like to extend my condolences to Gene Stankivitz (big Gene) His girlfriend of 15 years Theresa has made the journey home, she had pancreatic cancer, and she passed away today at 1pm...I will let everyone know when services are as soon as I know. Theresa was at the track every Sunday, and she video taped every pass that Gene ever made. She was there to lend a helping hand whenever you needed one. Theresa you will be missed....and tell Artania that I say hello!

Robin and the whole ESTA Staff..
