

Street at E-town

Posted by estapete - 09 Mar 2014 07:45

On May 4th our winner in the Street Money class will have the opportunity to go to the NHRA Summernationals at Englishtown (May 29 – June 1) to race in a special Street class during Sundays eliminations. The car has to follow NHRA's Street Legal rules and be legal to be driven on the Street which in our state means Inspected, insured and registered. The car has to be driven to the event not trailered. You can trailer to the motel if you want but you cannot trailer to the track. They will have a special area for you to park at the track. The winner will receive a special "Wally" plaque and have their picture taken with one of NHRA's professional drivers. This is a really neat deal to showcase the Street class at a National event.

Does not need to be registered to run in Street Money at ESTA on a weekly basis neede to be in Street Trophy. You can use a different car at E-town if you wish.
