

Work Day Sat. April 12

Posted by estapete - 09 Apr 2014 06:31

I will be at the track this Saturday from 9am till probably 5 or so. If anyone wants to come out and help with some clean up work feel free to do so. Going to do some trimming along the return road so if you have shears or small saws bring them. Calling the DEC today to get a permit to do something with the beavers that have returned. I'll be there Sunday also but probably only till noon or so, we have a workers meeting scheduled for 1pm.

Thanks,

Pete

Ditto

Just found out I have County Search and Rescue Training Saturday..

Open season on beaver, or did you get the permit?

Probably hang the signs back up. Beaver permit is coming in the mail. I have to check the DEC site yet for a trapper, the trapper that we used last time has his traps all out.
