

1991 MUSTANG GT ROLLER \$3,000

Posted by ten5abody - 27 Aug 2012 17:45

1991 Mustang GT roller, no engine, trans, exhaust, radiator or fuel system. It has a clear NY title and can be put on the street. This car is VERY SOLID with no rust. It has a repaint that's in fair condition. Here are the details.....

8 point roll bar

weld in frame connectors

6" Cervini lift off hood with fresh paint(needs dzus fasteners)

10 gallon aluminum fuel cell

4 lug Weld Superlite rims all around, 15x3.5" and 15x8";

M/T Sportsman fronts and 10x26" slicks

NEW UPR double adjustable upper and single adjustable lower control arms

NEW Wolfe Racecraft billet spherical housing bushings

8.8 rear axle with welded tubes, stock width, drum brakes

Moser 31 spline spool and axles with c-clip eliminators

Moser aluminum braced axle cover

4.10 gears(brand unknown)

NEW Strange 1350 yoke

NEW Strange single adjustable shocks

control arm/torque boxes are all welded up

stock GT springs all around(uncut)

NEW driveshaft loop(needs installed)

stock front suspension and K-frame

Grant steering wheel

one plastic racing bucket

no back seat

NEW Wolfe Racecraft aluminum rear firewall(needs installed)

trunk mount battery

\$3,000 or.....

For an additional \$500 I have the parts to install an SBC. NEW 1 3/4" fender exit headers, NEW AJE trans crossmember, NEW motor mounts and a 3 1/2" driveshaft with solid 1350 u-joints.

I'm keeping the shifter and gauges so I lowered the price to \$3,500. Will take \$3,000 minus the Painless panel and Wilwood brakes.
