

1979 MALIBU WAGON, SOLID TX CAR

Posted by ten5abody - 25 Jul 2011 05:33

Unfortunately I have to sell my latest project. It is a solid 79 Malibu wagon, 305/350, all stock original except for a BG 650 carb. The body is solid with some surface rust along the bottom of the doors and around the rear wheels. Nothing rotted through. The interior is all there(blue), but the plastic is faded and crumbling from the TX heat. I do have an almost complete black interior for it with the exception of the dash and front seat. I have a pair of black race buckets I would sell with it for an additional \$100. This car runs and drives as it sits, but I've never driven it down the road. Just up and down the driveway and on and off a trailer. It has a clear NY title too.

\$1,000 or \$1,100 with the race buckets.
