

1997 DODGE DAKOTA EXTENDED CAB

Posted by ten5abody - 09 Apr 2012 09:04

1997 Dakota SLT extended cab

V6/auto

2WD

bed liner

tool box

Reese hitch

tilt wheel

cruise control

power windows

power locks with remote lock/entry

A/C but needs a charge

This has been my daily driver for the last seven years and it runs and drives excellent. I'm only selling it because I need a bigger truck now. I bought it with 101K on it and it now has 148K on it. I put four new tires on it back in October of 2011. It passed a NYS inspection in February of this year and was parked at the end of March. The oil was always changed at 3K miles. The only thing it needs is a muffler.

KBB value is \$3,480 in "good" condition. I'll take \$2,800.
