

Pro Comp BB Chevy Heads

Posted by slippery440 - 22 Apr 2012 19:09

I picked up a pair of Pro Comp. aluminum heads from a guy that restores old cars. These heads are like new. The owner that put these heads on just before he sold the car to another guy. The new owner wanted the car back to original and steal heads.

They are 119 cc chamber with 300 cfm runners with 2.25 intake valve and 1.88 exhaust valve. Rectangle ports. \$850 for the pair

Also a HEI Pro Comp distributor like new \$50

Do a package deal for \$875
