

15X8 WELD ALUMASTARS

Posted by ten5abody - 22 Oct 2012 18:14

Nice pair of Weld Alumastars. They are 15x8 with a 5" BS and GM 4.75" BP. They have been drilled for slicks with 5 holes on each side. The valve stem holes have also been opened up for tubes. There are a few minor scratches and they need a good polishing.

\$500/pr or trade for ?
