

WELD ALUMASTARS

Posted by T-Wrecks - 13 Jun 2011 09:15

I need to sell these rims and tires.

Very good hoosiers 33.5.x15x16's On NICE, Weld/ Cragar Alumastars

15x16 rims with 4 inch back spacing with 4 3/4 BC, tire bulge is 2 inches per side.

I just dont have a need for these rims. I am converting to a 5 on 5.5 bc with a floater housing.

Hardware out to polish the rims and make them purdy again. Sitting in a trailer isn't all its cut up to be!

Asking 600 complete, but listening to offers

Victor 433-0063

I would really like to get rid of these rims/tires....

They are just sucking up space in my garage

Throw me an offer....
