

Meth Injection Kit, 2-bar MAP sensor, Axlebacks

Posted by jaSong_10 - 08 Jul 2013 11:01

Snow Performance Stage 2 MAF Methanol Injection Kit

high-flow pump, 3-qt res., boost or MAF voltage triggered control box, solenoid upgrade, high pressure line, 3 nozzles, and install instructions

has been installed on car but removed with less than a gallon ran through it, found out at tuner that it wasn't necessary

\$375 OBO

AeroForce 2-Bar MAP Sensor

measures up to 15 psi of boost

comes with three-wire pigtail

\$25 OBO

Flowmaster American Thunder Axleback Kit

fits 11-12 Mustang GT

in third summer of use (currently on car)

sounds great, just looking to go to a catback system

\$350 OBO

thanks for looking
