

HOOKER SUPER COMP HEADERS FOR SBC

Posted by ten5abody - 24 Jul 2013 10:41

Nice used Hooker Super Comp headers for an SBC, part number 2130HKR. They have 1 5/8" primary tubes that are 29" long with a 3" collector. They have a dent in number 6 and 8 tube. Looks like it was done for AC clearance. I bought these used only to find out they don't work with straight plug heads. They go for \$450 new, I'm asking \$250.
