

540 BBC, BTE GLIDE, AEROSPACE EVAC PUMP

Posted by 54210 - 26 Jul 2013 14:18

Bought this combination from an ESTA racer a few years ago-engine had just been freshened. R&R trans went thru the trans for a checkup. Ran 10-12 1/8 passes in a Chevy LUV tube chassis at Skyview. Best of 5.9 seconds spinning badly-on motor-never sprayed.. Have the tube chassis pan and another new one for 2nd gen F-body. She's complete with ignition and 1050 dominator just the way I bought it. Dart block, Eagle internals, Dart heads. All we ever did was change the oil-it's a HORSE!!!! \$8500 gets it all. Possible partial motorcycle/boat trades considered but deal must include some cash.(no rockets please) jakers@stny.rr.com
