

Grizzly 4000 metal lathe

Posted by 64fatblock - 19 Apr 2014 02:56

Grizzly 4000 metal lathe, 9x19. Comes with extra large 4 jaw chuck. Works great just don't use it much anymore. Comes with some tooling/tools. This lathe is fairly small and doesn't take up much room. I used it mostly for turning aluminum. \$700

Call/text only if interested.
