

Just a reminder!

Posted by Jeff Parker - 28 May 2013 07:26

The track will **NOT** be open this coming weekend per the schedule. (June 1st and 2nd)

We'd like to thank everyone who came to try out or see the new 330' concrete starting line! We feel it was a very successful day based on the comments we heard that day and saw on social media. Some highlights were a broken axle, first slick car on the track pulled the front wheels off the ground, and a 1.07 sixty foot time for a normally aspirated SBC dragster! Pretty decent for green track. Thank you, all!

Jeff
