Do we know what's planned for future events, Test and Tune, and others. Would be nice to know, esp. , for planning

of the events on the schedule, which will be best for a sort of newcomer

and being that yesterday, sunday was rained out, doesn't that usually mean a test n tune will be coming up

i'm coming, even if I just go through tech, get her checked over

if I get all my stuff done, might come down soon, real soon, gotta get the other guys to come- from rochester
