

25.4 Monte Carlo ROLLER Certs to 7.50

Posted by Jeff Parker - 03 Feb 2012 11:15

Amended: Car is now a roller.

The Monte Carlo Roller is for Sale.

SFI 25.4 chassis certified to 7.50 Driven basically one season since rebuilt. Removable F/G nose, doors and trunk. Car weighs 2500# ready to run, plus driver. (based on BBC) 4 link.

Cert tag is out, but I will have a fresh cert upon receipt of down payment of asking price.

The cage is designed for a bigger guy, but the seat can be moved, or a smaller seat be installed.

MSD 7AL3 ignition & coil. Mega 450 Delay box. Aluminum center section/CM yoke, big bearing. 33 spline axles w/ 5/8 studs. BRAND NEW Hoosier tires all around. New front ProStars. Magna 500 fuel pump/filter. Magna regulator. Afco dual pass radiator. Afco rear double adjustable shocks, QA 1 front coilover shocks. Adjustable front shock position for ride height. B&M glide shifter w/ shift solenoid. Coated Stahl Headers. Motor and Mid plates. Removable steering wheel. EASY to get in to.

To make passes, you will need the following:

Motor, carb to pan with distributor, flywheel & starter

Transmission & Converter* I do have a PTC converter that will match the car + a 870-900 hp motor, available for extra \$400.

Steal this @ \$14,000.

374-0476 And yes, the shock doc sticker will come right off...LOL Belts and cert are out of date.
