

CHEVY 355

Posted by Kozz - 01 Jul 2013 06:39

I have a 355 ci SB chevy that has about 50 passes on it. It goes 11.60 in a 3400 lb car.

It has World Products heads that were freshened, steel crank and Manley I beam rods.

The engine is running and you can hear it run.

I can be reached at 315-593-6310 M-F 9AM to 5PM. I can also be reached at 315-529-1782.

Thanks, Ryan Koskowski
