There's a catch... Yes, there's always a catch.. You can come and start, run, and drive these two pieces of automobile today. I need them to be gone today or tomorrow. I need to get \$1000 for it. Like I said, you can come and check them out for yourself. I am moving to Utah this weekend. I had a buyer for it who backed out because he would have to drive this thing to Binghamton. Which brings me to the catch.. These are attached to a 1988 Winnebago 32 RQ.. 32 foot motorhome. I inherited this thing.. then it sat around in a couple different places. It has water damage to a bunch of the counter tops. two crank out windows were missing screens so cats got into it for about a year. It smells terrible. But it runs awesome. Come and get it today. Or tomorrow arrangements can be made. But it would be great if it could be checked out, signed off on, etc and paid for today. have clean clear title. And you can get a bunch of your money back by scrapping the rest of this thing. Email me here or at swimster@gmail.com or text me at 315-480-5811. I can text pictures.
