Dedenbear Throttle Stop Posted by hatchetman337 - 20 Feb 2014 08:44
Selling a refurbished Dedenbear TS-6 throttle stop. It's been sitting on the shelf since I had it refurbished at Dedenbear a couple years ago and I don't see myself using it any time soon. Comes with new SOL4 solenoid kit. Sells for almost \$900 at Jegs/Summit new. Make me a decent offer.
