

Dedenbear TS6 throttle stop

Posted by hatchetman337 - 07 Jul 2011 13:07

Selling a Dedenbear TS6 blade style dominator pneumatic throttle stop. I bought it used expecting to use it, so I had it refurbished by Dedenbear and bought all new solenoids for it. I may not need one for a while now and could use to money, so I'm asking \$600 for it, which is about what I have in it. They are \$750 new and it hasn't even been bolted to the car since being fully refurbished. Call Bob at 315-264-3850 or email ibob337@gmail.com .
