

Headers, mufflers, radiator, converter for sale

Posted by hatchetman337 - 23 May 2011 07:55

-BBC step headers for a 67-69 Camaro or 68-74 Nova for sale. They are custom built coated step headers with each tube separate for easy fitting. They are very light and in very good condition. They have welded in threaded EGT bungs in each primary (currently have plugs in them). Brand new they were over \$1500. I'd like to get \$600 for them.

-9" turbo spline Hughes Converter that was recently freshened by BTE. It hasn't been run or even bolted in a car since freshening. I used it in my Camaro for a while and it stalled about 5000. This would be great for someone with a 10 second foot brake car, but will also work with a mild trans brake car. Looking to get \$500 for it.

-Borla collector muffler set. 2 3/8" primaries. Great condition. New these go for \$375 each. Asking for \$350 for the set.

-Dragster radiator with electric fan and shroud. Has a mount for rear of a dragster. Was set up for a Spitzer car, but brackets can be made/modified to fit anything. Currently painted a purple/blue color. Asking \$250

Converter is gone, but still have everything else. I'll make someone a very good deal.
