

BBM TTI HEADERS

Posted by ten5abody - 21 Aug 2011 13:30

I have a nice USED set of TTI headers. They are for stock exhaust port location heads on RB blocks. Or Indy SR's, -1's, Edelbrock Victor or Stage 6 heads on a B block. The primaries are 2" and the collector is 3.5";

These will fit 67-76 A-body, 62-74 B-body, and 70-74 E-body according to TTI. These were originally the nickel plated version, but someone painted them silver.

These are almost \$700 new, I will take \$350 for them.
